Enlargement of Rink Dressing Room Considered by Council

EARL DEVINS
HEADS RINK
COMMITTEE

The dressing room at the village skating rink may be made considerably larger as a result of the discussion at the Monday night meeting of the Crossfield village council.

Need of more accommodation was brought to the fore and a suggestion followed that windows should be put in the west wall to allow a view of the ice while in the dressing room. The council felt that increased accommodation would add to the attraction of the rink and help to put it on a more stable basis. Absence of Mayor Wood at the meeting caused deference of the matter until the next meeting.

COMMITTEE

Earl Devins, speaking as a ratepayer, suggested the continuance of the committee which was formed last year to act with the council on matters pertaining to the rink. Mr. Devins accepted the appointment by the council to head the committee for this year and to appoint two other ratepayers to act with him on the Rink Committee.

The work of the body will be to make suggestions to the council on physical and management improvements to the rink and the council will then act on the suggestions.

Dick Patmore, who last year was caretaker of the skating rink, this year finds the position too conflicting with his present work as night watchman and the council is calling for applications for the rink manager's work.

Earl Devins announced Thursday that A. D. Stevens and Miller Hus will act on the Rink Committee.

Council Briefs...

...Plans were approved for the dwelling at the rear of the D. Hall property.

...The council passed approval of temporary grain bins on the business premises of Earl Devins. Coun. H. A. Banister said that although the bins would add no beauty to the village, he saw no grounds for refusal.

...The report was given to the meeting that "no parking" signs had been erected on the east side of Railway street.

Vandalism was reported to the council in the form of taking apart the slide on the playgrounds. The slide had only been repaired since Halloween and was taken down again by vandals.

...Speaking to the question of E. Devins, Coun. W. A. Hurt said that co-operation of ratepayers was necessary in dealing with acts of damage to village property. Mr. Hurt cited a case of a ratepayer objecting to the lack of prosecution for the damage done to a tree on village property. When the ratepayer protested to Mr. Hurt on the matter, but refused to divulge the name of the youth in question, the councillor had pointed out that there was nothing could be done in the matter without the name of the culprit, but added that if the name had been given, the village would have prosecuted to the fullest degree.

...Mayor W. J. Wood was absent from the meeting and W. A. Hurt was acting-mayor.

Beyond Powers of Legislature—Interferes With Federal Law

OTTAWA, Dec. 2.—A majority of the Supreme Court of Canada today decided the Alberta Debt Adjustment Act of 1937 as amended in subsequent years is unconstitutional and beyond the powers of the legislature of the province.

The decision was made on a reference to the court by the federal government for an opinion on the soundness of the act which the federal authorities contended was an invasion of the federal parliament's jurisdiction over bankruptcy and insolvency.

The act set up a "Debt Adjustment Board" and provided that no proceedings could be taken to enforce payments of debts by "resident debtors" or "resident farmers" in Alberta without the written consent of the board.

The majority judgment was written by Chief Justice Sir Lyman Duff and concurred in by Justices T. Rinfret, H. H. Davis, Patrick Kerwin, A. B. Hudson and Robert Taschereau.

Mr. Justice O. S. Crocket in a dissenting judgment held the act was not ultra vires "except insofar as its provisions may be found to conflict with any existing Dominion legislation strictly relating to any of the classes of subjects enumerated in section 85 of The British North America Act or as being necessarily incidental to the particular subject matter upon which the parliament of Canada has undertaken to legislate as falling within one or other of the said enumerated heads."

In the reference the Supreme Court was asked to say first, if the act was ultra vires in whole or in part and then, if it was operative in respect of a number of different types of suits for the recovery of money.

UNABLE TO ANSWER

As the majority found the act ultra vires in whole it also found it inoperative in respect of the suits mentioned in the secondary questions.

Mr. Justice Crocket who held the act not ultra vires except where it conflicted with federal legislation was unable to answer the secondary questions about particular actions with a similar qualification.

The court's decision marked another step in the long controversy over federal and provincial powers which arose from the attempt of Alberta's Social Credit government to give effect to its financial policies.

\$26 NETTED FROM RAFFLE OF CAKE

Mrs. Nyal Tweedle was the winner of the cake raffled in aid of the East Community Smokes Fund on Thursday. Net receipts of the raffle were over \$26, according to W. D. "Jim" McCool, who is in charge of the fund. The "Victory cake", iced in red, white and blue, was made and donated by Mrs. F. Stevens of Crossfield.

DICK MAY OVERSEAS

Word has been received by Mr. and Mrs. H. May of the safe arrival of their son, Dick, somewhere in England. Officially he is No. 116207, Signalman R. H. May, Operating Coy., R.C.C.S., attached to 5th Armoured Div.

REQUIRE 2,500 FOR NEW UNIT

New Ordnance Corps To Go Overseas in Near Future

A Dominion-wide call for 2,500 mechanics of every description to form the new No. 1 Base Ordnance Workshop, Canadian Army, which will leave for overseas within 90 days of its formation, has been issued from Ottawa.

Alberta will endeavor to contribute to this call and Major J. H. Galsner, M.C. district recruiting officer, M.D. 13, will leave for a tour of points in the province Wednesday, to gather recruits for this new unit. All told, some 1,500 motor mechanics, 200 wireless or radio mechanics, 100 electricians especially qualified in automotive ignition and rewiring, 50 cooks and at least 500 of the following mixed trades—instrument makers, watchmakers, fitters, machinists, toolmakers, precision grinders, body workers, tinsmiths, welders and driver mechanics—are required.

All who enlist will be given a special trades pay, which will amount to \$122.05 per month for a married man with two children, and for a single man \$93.45 a month and found, plus his later increase in pay when he receives his promotion.

Men will be recruited for this unit between the ages of 18 and 45 years, and who come within A or B categories. Now that the medical qualifications have been lowered by the army, an excellent opportunity is open to many who might have failed their medical examination previously.

It is the opinion among many military officials that this unit is to be a "crackjack" one for special work overseas, and it will be necessary for a man to have had some practical experience in his work before being accepted. Applications for enlistment in this unit may be made to the district recruiting office, or the case there is not a recruiting office in the district, an application to any army officer will bring the desired result.

A general call is being made to every reserve unit in Alberta. The training centre at Currie Barracks, Calgary, R.C.A.S.C. training centre at Red Deer, and the Camrose and Grande Prairie training centres are also being invited to send men to the new unit.

Subject to the approval of the Alberta legislature, the Alberta Wheat Pool will pay one-quarter of a cent per bushel, plus a dividend on grain delivered to Pool elevator facilities in the crop years of 1938-39 and 1939-40.

They Shall Smoke

Crossfield and district should pledge itself to keep smokes going overseas to our local boys serving in His Majesty's Fighting Forces.

It is easy—all that is necessary for the individual is to dig into his pocket and hand a little small change to the East Community Smokes Fund, and they will do the rest.

There are innumerable things we can all do and are doing to help bring victory, but this effort is something personal for OUR boys who are fighting for US. It is a small way, indeed, to help keep the morale of these boys high and to remind them that we are behind them and appreciate what they are doing for us.

From the time the fund was inaugurated, there has always been something given in return to patrons of the fund: dances, raffles, etc.—but now it is time that we did something for our boys without expecting entertainment in return.

Crossfield and district MUST keep the smokes rolling to OUR boys overseas.

We always were of the opinion that there was something wrong with a government which would provide skirts for debtors to hide behind—and allow them to literally thumb their nose at a creditor who has allowed them the privilege of credit.

Remember the old cry: "Back to the land"? Seems now that even the land itself has done its share of moving off the farms.

The thoughts of Christmas scare us now, but in a couple of weeks we'll be right in the spirit of the season.

Remember the last times we stumbled through those high-fallutin' names in North Africa?

THE PRICE CEILING ORDER IS NOW LAW

A fine up to \$5,000 and two years imprisonment is provided for offences against this law

What You Must Do to Comply With the Law

1. AS A CONSUMER

You must not buy goods or services for more than the highest price charged for such goods or services during the basic period, September 15 to October 11. If in doubt, ask your merchant for proof the price he asks is a lawful price under the Price Ceiling order. Normal seasonal price changes in fresh fruits and vegetables and greenhouse products are exempt.

2. AS A RETAILER

You must not sell goods or services for more than the highest price at which you sold such goods or services in the basic period, September 15 to October 11.

You must not buy goods or services from manufacturers or wholesalers or any other sources for more than the highest price you paid to them in the basic period.

It is intended that cases of serious hardship should be adjusted by reducing the cost of merchandise to the retailer. Retailers whose cost of merchandise delivered to them after November 20 is too high in relation to the ceiling prices, should get in touch with their suppliers and try to arrange an adjustment fair to both parties.

The price of goods of a kind or quality not sold during the basic period must not be more than the highest price charged for substantially similar goods in the basic period.

3. AS A WHOLESALE

You must not sell goods or services at more than your highest price (less discounts then prevailing) for such goods or services during the basic period, September 15 to October 11. You must not buy goods or services for more than the highest prices paid during the basic period.

Wholesalers will be expected in some cases to reduce their prices below the ceiling in order that their retail accounts may carry on. Wholesalers in turn may have to ask their suppliers for price reductions.

The continued flow of goods through normal channels is of the utmost importance and the Board will intervene if suppliers divert business abnormally from one customer to another.

4. AS A MANUFACTURER

You must not sell at prices higher than your highest price (less discounts then prevailing) during the basic period, September 15 to October 11.

In some cases it will be necessary for manufacturers to reduce their prices below the ceiling so that wholesale and retail accounts may carry on.

Where maintenance of the retail ceiling requires manufacturers' prices to be substantially reduced, the Board will investigate and in proper cases will afford necessary relief.

IMPORTS

Retailers, wholesalers and manufacturers are assured by the Board that any considerable increases in the cost of import of essential goods will be covered either by subsidies or by adjustment of taxes. Details will be announced later.

Services Also Come Under This Law

The Price Ceiling law also applies to rates and charges for electricity, gas, steam, heat, water, telegraph, wireless, telephone, transportation, provision of dock, harbour and pier facilities; warehousing and storage; manufacturing processes performed on a commission or custom basis; undertaking and embalming; laundering, cleaning, tailoring and dressmaking; hairdressing, barbering and beauty parlor services; plumbing, heating, painting, decorating, cleaning and renovating; repairing of all kinds; supplying of meals, refreshments and beverages; exhibiting of motion pictures.

NO CHEATING OR EVASION OF THE PRICE CEILING LAW WILL BE TOLERATED

"How the Price Law Works", a pamphlet setting forth how each branch of business must apply the regulations to its own operation will shortly be available at Post Offices and Branch Banks.

The Board will soon open Regional Offices throughout Canada, where problems may be discussed. These Offices will co-operate with business in the adjustment of difficulties. The Price Ceiling law is vital to Canada's war effort.

PUT PENSIONS UP TO OTTAWA

Plea for Aged Finally
Passes Social Credit
Women

That the Alberta government make representations at once to the Dominion government in favor of an increase in the maximum pension payable to Old Age Pensioners to \$30 per month, the cost to be shared among the Dominion, the provinces and the municipalities, on the same basis as the present cost, and that the pensionable age be reduced to 60.

Such was the amended resolution presented and accepted by delegates to the second annual convention of the Social Credit Women's Auxiliaries meeting in the Palliser Tuesday.

The S.C.W.A. also passed a resolution urging immediate and complete mobilization of Canada's industry and natural resources, and the conscription of finances, "followed if need be by the conscription of her man-power."

PLEDGES SUPPORT

Stating Alberta is practically being forced to suspend the imposition and collection of various forms of taxation for the duration, the Library S.C.W.A. urged the convention to "emphatically endorse the protest of the government of the province of Alberta and pledge its support to the utmost, any steps the government may deem necessary for the protection of our provincial rights." This was carried.

Other resolutions were: Free transportation for the armed forces on furlough and embarkation leave; reduction in the spread of poultry prices between producer and consumer; that employers provide transportation home in cases where girls are asked to work after midnight; revision of the Canadian freight rates so as to equalize Alberta with other provinces; granting of divorces to incurables, desertion, etc. and that Britain adjust the monetary system, so that her clothing will be used for her people to obviate the everlasting shipping.

The board of trade is looking to the annual meeting for restoration of life. It will have to be something a lot better than "artificial" respiration—it will have to be a "real" effort, so let's have a good turnout to the annual session on Thursday.
